Commitment to improving outcomes for trans youth  
Comfort with independent work and collaboration

Collaborate PASadena is looking for several dedicated individuals to join as team members of an Assessment Planning Group. The group's main focus will be to identify the needs of parents and caregivers of transgender and gender diverse youth and children. The primary objective of this initiative is to develop training and resources for caregivers, with the goal of reducing the number of transgender youth interacting with the child welfare system because of their gender identity and minimizing housing transitions for transgender youth in foster care
